The screenshot shows the MOSS dashboard with a navigation bar containing 'My Workspace', 'SERVERS', and 'SITES'. Below the navigation bar is a breadcrumb trail '> Sites'. The main content area displays a table with the following data:

Domain	Server	Type	Health
demo-laravel.doalitic.com	www-00	php	✓
demo-other.doalitic.com	www-00	php	✓
demo-static.doalitic.com	www-00	HTML	✓
demo-symfony.doalitic.com	www-00	php	✓
demo-wordpress.doalitic.com	www-00	php	✓

The screenshot shows the MOSS dashboard with a navigation bar containing 'My Workspace', 'SERVERS', and 'SITES'. Below the navigation bar is a breadcrumb trail '> Sites > demo-wordpress.doalitic.com'. The main content area displays a tabbed interface with 'HEALTH' selected. The table below shows the health check results:

Date	Duration	Status
11/09/2017 12:32	0.16"	✓
11/09/2017 12:27	0.28"	✓

Moss APP 12:01 PM

Your website has been successfully deployed:

Website deployment

Your website has been deployed 🎉

Website

demo-laravel.doalitic.com

Server

test-00

Moss May 10th at 12:01 AM

Always nice to see that your deployment went alright :)

Moss APP 9:00 AM

There are servers with high cpu usage, you might want to take a look:

CPU usage alert

More than 95% cpu usage for 5 consecutive minutes 🚨

Server

test-00

Moss May 10th at 9:00 AM

Take preventive action before your users notice performance issues ;)

Moss APP 12:49 AM

There are unreachable servers, they might be down:

Server down alert

I could not collect metrics from some servers for 5m 🚨

Server

test-00

Moss May 10th at 12:49 AM

Get an alert when your servers break!
